This thread discusses the Content article: Star of David

Within the sphere of "strange aspects"

What would you make of a natal that has two Grand Crosses and "The Star of David" with one trine forming a Bisextile?

I mean the bigger picture when we put all of these aspects together.

I am hoping someone can help because I can not find any literature speaking to this kind of aspect and most who should know, seem to be at a loss for words.

Natal info: 9/25/69 at 23:26 in Las Vegas, Nevada

Thank you
